M. C. R. R.—Trains leave Bolivar daily for Grand Junction at 8 a.m. Returning, leave Grand Junction at 10% A. M.

with passenger and freight trains on the to Canton, and there connect with trains Connection is also made with trains on the Memphis and Charleston road running east and west of the Junction.

HEAVY DAMAGE,-Tho heavy rains that fell during the latter part of last week prov-Oed quite disastrous to bridges and railroad lines. It is asserted by those who are entitled to all credence, that more water fell in the section of country through which the Hatchie river passes, east of this, than has been known to fall in the same length of time for many a year if ever. The Hatchie river, which was comparatively low for this season of the year, previous to the recent heavy rains, began to rise suddenly last Saturday, and never ceased to "spread itself" until it had reached a point higher than it has been any time during the past winter or present spring; however, it's falling now, and will no doubt recede as rapidly as it rose, as the rains were of a heavy, beating character and disappeared almost as suddenly as they came. In consequence of damages to the bridges on the Mississippi Central and Memphis and Charleston roads no regular trains have arrived here during the week, and but one or two of any kind. In connection with this, we will state that the localities of Grand Junction, Pocah ntas and Saulsbury were visited by a terrific hail storn on last Sunday evening. About 4 P. M. of the same day a heavy rain storm, a companied by considerable hail, was experienced here, since which we have been enjoying most beautiful weather.

May Day .- The children who attend the female schools of Bolivar together with many of the young ladies, propose to enjoy basket pic-nic at the Tanyard Spring, about this noble tribute to the unconscious dead of one half mile east of the residence of Paul Jones. We are requisted to state that it no, not one. The graves of many of the bill, or the same will be taken pro confesso to should rendezvous at Bolivar Female Acade- their all for what they deemed right are seatmy at 71 oclock A. M. on next Tuesday morning, where all articles of comfort for the "inner man" should be brought, as a wagon will be in readiness to convey the edibles and nic nacks to the spring. It is anticipated that this will be a most pleasing and agreeable affair, and will give the young folks an opportunity to enjoy themselves beneath the green and shady trees that shut out so effectually the rays of old Sol.

IMPROVEMENT .- The iron foundry, recently constructed by Mr. Paul T. Jones, two mile north-west of this place, will be in full dead. blast in a week or two, or as soon as the necessary labor can be procured. This enterprise will supply a great want that has the call of the mayor. Present: long been experienced by the citizens of this | T. B. McDowell mayor, R. S. BADLY NEEDED -A mail route is badly needed from Savannah, on the Tennessee river, to Memphis, via Purdy, Bolivar and Somewille, It will pay Will our Memphis exchanges take this in hand? It certainly will be of great benefit to the public all along the route, as it is one that extends through a thickly settled and wealthy country.

New Saw Mill -- We learn from Capt. Wm. Montgomery that a first class saw mill is being constructed on the bank of the Hatchie river about one mile North of Bolivar, near the railroad bridge, and that it will be in operation in a few weeks, The a great convenience to the public generally. Mr. Montgomery is superintending the work, and from his thorough knowledge of the bust iness will no doubt make it second to none in the Western District. This is another good sign of the times, and our citizens have ample cause for congratulation in view of Hardeman. By the way, how would it do to ordered to be spread upon the minutes. -acitate the question of creeting a cotton factory? It seems that such an establishment would pay here, and be the means of adding largely to the commercial importance of Bolivar, besides it would naturally be of no little advantage to business men generally, and it would bring in a mechanical popula- the call of the Mayor.

Good Sios.—In passing through the We have seen specimens of Test's pic- ishoak and 2 blackcak pointers on the north country adjacent to Bolivar one cannot fail tures.
